

Kelin waterborne epoxy adhesive is a high-end environmental product. Matte texture, provides you a low-key luxury decorative style, and the joint surface looks perfect fit to the ceramic tile. Varieties of colors, let your decoration place sparkling. The subbase course of waterborne epoxy resin makes the product absolutely environmental. Natural sand calcined at high temperature makes the color more natural and beautiful and never fades. The product can be better used in the joints of ceramic tile, stone, glass, mosaic tile on the wall or flour in bathroom, kitchen, bedroom and so on. It is a preference product in family decoration, adding negative oxygen ion to purify air. Australia joint research and development products to make the better performance, and through the Chinese Academy of Sciences strategic quality control guidance, to make products' quality stable. If you choose grout sealant supplier, please choose Kelin.

Varieties of colors for your choice. Also provide custom colors.

The image displays a comprehensive color palette for floor finishes, organized into two main sections: gray and gold. The gray section includes 15 options, ranging from 'Pure white' to 'Black pearl'. The gold section includes 5 options, ranging from 'Pearl gold' to 'Bronze'. Two circular inset images provide close-up views of the 'Dazzle silver' and 'Dazzle gold' finishes, showing their intricate, sparkling textures.

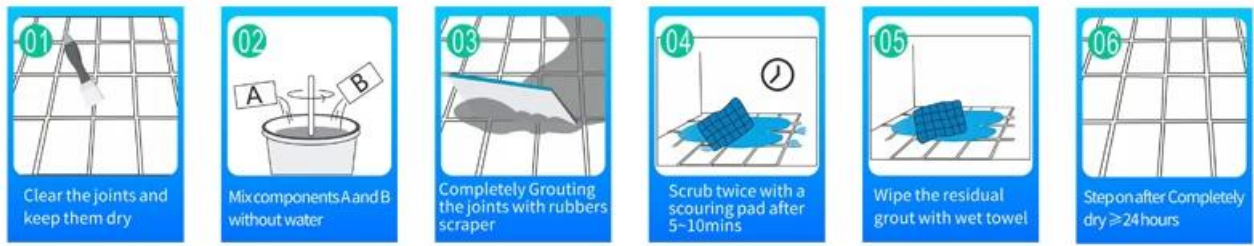

The top photograph shows a modern bathroom with a white freestanding bathtub, a toilet, and a sink. The floor is finished with a light gray, glossy material. The bottom photograph shows a living area with a dining table, a sofa, and a chandelier. The floor is finished with a light beige material featuring a grid pattern of gold lines.
