

Kelin waterborne epoxy adhesive is a high-end environmental product. Matte texture, provides you a low-key luxury decorative style, and the joint surface looks perfect fit to the ceramic tile. Varieties of colors, let your decoration place sparkling. The subbase course of waterborne epoxy resin makes the product absolutely environmental. Natural sand calcined at high temperature makes the color more natural and beautiful and never fades. The product can be better used in the joints of ceramic tile, stone, glass, mosaic tile on the wall or flour in bathroom, kitchen, bedroom and so on. It is a preference product in family decoration, adding negative oxygen ion to purify air. Australia joint research and development products to make the better performance, and through the Chinese Academy of Sciences strategic quality control guidance, to make products' quality stable. If you need [China ceramic sealant](#) OEM, please choose Kelin.

**Varieties of colors for your choice. Also provide custom colors.**

The image displays a comprehensive color palette for floor finishes, organized into two main sections: silver/gray tones and gold/brown tones. Each color is represented by a horizontal bar with a corresponding label. The silver/gray section includes: Pure white, Light gray, Gray silver, Noble gray, Luxury gray, Stupid gray, Silver gray, Metal gray, Dazzle silver, Shiny gray, Shiny silver, and Noble gray. The gold/brown section includes: Pearl gold, Rich gold, Amber golden, Dazzle gold, Shiny gold, Champaign silver, Bronze, Coffee brown, and Black pearl. To the right, two photographs illustrate the application of these finishes. The top photo shows a modern bathroom with a white bathtub and toilet, featuring a silver/gray floor finish. A circular inset provides a close-up of a silver/gray cross-shaped floor tile. The bottom photo shows a living area with a dining table and chairs, featuring a gold/brown floor finish. A circular inset provides a close-up of a gold/brown cross-shaped floor tile.
