Kelin waterborne tile grout is a new product based on the upgrade of two components tile grout. It is a kind of waterborne epoxy resin products, with better environmental performance , being far beyond the international standard. At the same time, it is mould proof, moisture proof, environmental friendly, non-toxic and net flavor, adding negative oxygen ion to purify air and get rid of formaldehyde. The products of <u>China epoxy gap filler supplier</u> is a preference product in family decoration. Australia joint research and development products to make the better performance, and through the Chinese Academy of Sciences strategic quality control guidance, to make products' quality stable.

The product can be better used in the joints of ceramic tile, stone, glass, mosaic tile on the wall or flour in bathroom, kitchen, bedroom and so on. It is not only playing the role of bonding and blocking, but also can beautify ceramic tile. It has its own feature: great varieties of color, bright luster, and its surface is bright as porcelain after curing. <u>China epoxy grout manufacturer</u> is the best choice for your house.

Varieties of colors for your choice. Also provide custom colors.
